

Version 1 of Flodech Overview

Flodech Version 1 is a simple and affordable academy management platform designed for coaching centers, tuition classes, and small academies. It helps academy owners organize student records, manage admissions, track attendance, and maintain essential information in one place without the complexity of large school ERP systems. Built with ease of use in mind, Flodech focuses on saving time, reducing paperwork, and helping educators stay organized so they can focus more on teaching and growing their academy. Version 1 marks the beginning of Flodech's mission to make academy management smarter, simpler, and more accessible.

Features of Flodech Version 1

- Manage Students record
- Notices and Announcements section
- Internal Chat system (For each student)
- Attendance management
- Fees management
- Class scheduler (Public)
- Academy reports
- Academy Website (For Growth)
- Homework management (Public)
- Student portfolios (Public)

In short Flodech Version 1 will give a good package to teacher for managing academies and grow it simultaneously with 10 valueble features
