

Launch of Flodech Version 1

Flodech Version 1 was initially scheduled to get released and accessible from 23rd June 2026 but due to our intense hardwork and excellent preparation we are proud to announce that the launch of version of Flodech E-R-P is preponed !

The link and all the features are working. Our Payment provider integration was done successfully making our platform paid.

The name of the subscription needed to access the dashboard is FLODECH PRO which was initially planned to be named as Flodech Silver.

In future versions we will also introduce trial plan and some free basic features to use.
